**Leading Provider of Patent Lifecycle Management Delivers New Solution for Filing Patent Applications Electronically****FTF Technologies e-Filing Service to Reduce Cost, Time and Complexity for Corporate Patent Filers**

Boise, ID, Sept. 9, 2003 - FTF Technologies, a provider of patent lifecycle management services, today announced the launch of its e-Filing service for filing U.S. patent applications electronically. Both FTF Technologies and its affiliated company, MarkMonitor, will market this new offering.

As one of three companies chosen by the United State Patent and Trademark Office, FTF Technologies' e-Filing service provides patent filers the ability to electronically file patent applications without having to use unreliable XML-conversion tools. The e-Filing service creates USPTO-compliant XML from standard word processing documents and securely transmits applications electronically.

With FTF Technologies' e-Filing service, users will be able to electronically submit:

- ⌘ Non-Provisional and Provisional Utility applications
- ⌘ Information Disclosure Statements
- ⌘ Assignments
- ⌘ Pre-Grant Publication requests
- ⌘ Each submission results in an instant acknowledgement of receipt from the USPTO.

According to Faisal Shah, FTF Technologies' CEO, "The issue of getting technology on file fast, while at the same time cutting prosecution costs is a critical issue for today's companies. Our e-Filing service streamlines the filing process while reducing cost, time and complexity."

In its continuing efforts to bring value to the IP community, FTF Technologies is offering a free webinar on e-Filing October 29, 2003. Interested participants can go to either the FTF or MarkMonitor website to register.

**About FTF Technologies Inc.**

FTF Technologies provides patent lifecycle tools to Fortune 500 Companies and IP Law Firms. FTF Technologies offers the FIRST TO FILE® solution to manage the patent process from invention disclosure through patent prosecution and patent maintenance. FTF Technologies is one of only three companies contracted with the USPTO to offer e-Filing services. Through a Strategic Alliance with Reed

Technology and Information Services Inc., the patent database conversion contractor for the Publications Division of the USPTO, FTF Technologies' provides PTO-compliant XML conversion with its e-Filing services. For more information, contact FTF Technologies at (866) 383-3453 or visit our web site at [www.ftftechnologies.com](http://www.ftftechnologies.com).
